Laura, I am on vacation with the love of my life. As I said before back in the Springtime, I don't know why you continue to send me these messages. I DO NOT want to be a part of your family drama. I wish you well because you seem to be in lots of turmoil but please stop writing me

YEARS AGO I APPLIED TO THEIR ART PROGRAM BUT SOMEHOW ENDED UP IN PUBLIC AFFAIRS. I DID NOT WANT TO WORK IN GOVERNMENT SO I TOLD THEM NO. DO YOU WANT TO KNOW WHO I THINK PULLED STRINGS TO MAKE THAT HAPPEN= MY DAD. I HATE HIM.

MY DAD JUST TOLD HIS FRIENDS HOW HE GAVE ME MONEY, WELL I HATE THE FACT THAT HE USES THAT I STILL HAVE TO TAKE MONEY FROM HIM TO PUT ME DOWN AND I HAVE HAD IT CAUSE I AM NOT A LEACH. I WANT HIM OUT OF MY LIFE FOREVER BUT THAT WILL NOT HAPPEN UNLESS I AM WORKING ON SETS AND I WILL NOT BE FORCED BACK EAST OR FORCED TO BE HIS SLAVE.

I HAVE FOUGHT TO HARD TO WALK AND TO BE FREE TO MOVE AND ENJOY LIFE TO LIVE THE ONE MY DAD WANTS. I DON'T CARE ABOUT RETIREMENT. I WANT TO LIVE FOR TODAY. DO I HAVE TO WAIT TILL THAT MAN DIES BEFORE I CAN DO WHAT I WANT. HE DID NOT HAVE TO GIVE ME ANYMORE MONEY IF HE HAD LEFT ME ALONE ON SETS. AND IF I CAN'T BE THE CONSTITUTION IS CRAP AND I WILL NOT SERVE IT AS A LAWYER.

IF I HAVE TO I WILL GO TO THE BAR AND RETIRE FROM IT SO THAT NO ONE CAN MAKE ME DO IT. EVER. MY DEBT IS MINE. BUT I HAVE THE RIGHT TO CHANGE CAREERS AND IF I FOUND OUT THE GOVERNMENT FORCED ME OFF SETS FOR MY DAD AND TOOK MY CHOSEN PROFESSION FROM ME I WOULD SUE THEM AND MAKE THEM FORGIVE MY

AND I HAVE NO RESPECT FOR LIARS AND I NEVER WANT TO SEE HIM AGAIN AS LONG AS I LIVE AND IF GOD EVER DID SEND ME SOMEONE TO LOVE THAT PERSON WOULD LOVE ACTING AS MUCH AS I DO AND THAT PERSON WOULD NOT PUT ME DOWN OR TELL ME ONE DAY I WOULD BE BEAUTIFUL AND THAT ONE DAY I WOULD GROW UP WHEN I ALREADY AM.

I WILL NOT BE A CRIPPLE BACK ON THE EAST COAST WHEN I HAVE FOUGHT SO HARD TO DANCE.

THAT DOES NOT MEAN I HAVE TO GIVE MY PARENTS ANYTHING IN MY LIFE AND MY MOM JUST THREATENED TO COME OUT HERE TO FIND OUT WHAT I AM DOING AND I HAVE SPENT YEARS OUT HERE NOT FEELING SAFE FROM THEM CAUSE ALL I WANTED WAS THEM TO BUTT OUT AND LET ME GROW UP. MY BROTHER STILL LIVES WITH THEM AND THEY ARE CO-DEPENDANT ON HIM. THEY NEED TO GROW UP AND LET GO. I WENT TO GET MY TEETH FIXED CAUSE I BROKE THEM I AM SO MAD AT MY DAD BUT I WOULD NOT GO UNLESS MY PARENTS WERE GONE AND WHILE THERE MY WINDSHIELD GOT BROKE. THEY WILL NOT HELP ME FIX IT. LETS MANIPULATE LAURA INTO BEING A LAWYER. WELL THAT WAS 3 YEARS OF MY LIFE AND THE ONLY PART OF MY LIFE I REGRET AND I WILL NOT USE THAT DEGREE AND I DON'T HAVE TO AND THEY WILL NOT MAKE ME. MY DAD HAS IT ON HIS WALL AND I WANT TO BURN IT.

AND if you see them you can tell them they have given me no choice. my friends are a mix. some are actors and some are others in the industry. but it would not matter if i had none here. i would still rather be here alone than anywhere else.

I have a baton I keep in case my dad shows up at my door. He should not even know where i live. I am scared all the time now. The only future I want is one here in los angeles on sets and the only real job i want was one on a set and i am not going to sell anything, be in a suit or get any other kind of job.

Is the liar the deceiver and the delusional one. I have worked my butt off out here and I honestly think he has been paying people to try to make me move back east or go be a lawyer. I had the right to change careers. Did anyone wonder why They don't know where I live. I have not had peace out here when ever they knew where I was. This is my home. Not MD. Not VA. I have never been happy until I started working on sets and after being able to meet and talk to people who actually are working actors, my parents think I am going to move back east or leave LA. FORGET IT. I am not obsessed over any guys. I don't want one in my life, not if he is not going to let me act and work on sets and make film I am not. I would never get a real job and be happy. I would end up getting my cancer again. I am going to my Union and asking them to help me and if I find out my dad lied and did something two years ago when I would have been free of him finally. they lost me at 18. I used to

losing the things I cared about to many say that I am. And in this time in my life when part of me wants to end i don't have family to turn to cause my family is the problem not me. I dont manipulate. They do. We were done two years ago, and would be still if my life on sets had not ended so corruptly and my dad would not help unless I invited him here and I hate him for that. He wants me to be an adult but needs to hold my hand. I am old enough that I don't have to sit down and tell him anything about my life anymore. And if he did have something to do with it, he has left me scared out of my mind not knowing why and just wanting to go back to doing what i beat cancer for. THAT IS ABUSE.

Jul 1, 2010, 9:58 AM

Laura Ann Tull

I am terrified of him. I was working on sets and he called me up and he was in town and demanded to see me or i would regret it. I told him no. I made a promise I would hurt him if I ever had to see him again after God took my breasts. I can act. And working on sets was all i did for 5 years. I will go back to working on sets, and if I have to file a restraining order against him and find out who put me on some black list so I lost my profession. I am not a professional lawyer. I have not practiced since I got turned off after my car accident. I mean I had to fight for 7 years and move to California and get out of the cold to be able to climb mountains again. I am going to learn to ride a motorcycle this weekend so I can keep pushing for my plans for my life. I am not a member of the TULL family anymore. I AM ME.

That is me to the left of Jodie Foster in the film scene. People out here liked me but my dad wants me to think they did not. he told me I don't get along with people and that I cant function and that I am a manipulator when I volunteer at cancer organizations even when I don't work and I was happy on sets. I knew the AD when they did this and they knew I beat cancer to act.

If my father had anything to do with me being put on a list and not be allowed to work in the industry unless paid or not be allowed on sets when the only work I care about was on sets, I would sue him and take his house and make him pay for my law degree. Cause I was happy and had connections and was making it just fine and I don't need a car a man or a house to be happy. I just want my work making films and being on sets.

And I shot a film that is supposed to go to all the festivals in this next year so everyone will know I can act. And they paid me a little for it too. I will not go back east when I have fought so hard and gotten as close as I have. I AM SAG UNION ELIGIBLE- the same union Clooney and all the other actors are in and I don't care if only 10% make a living at it. I am not going to devote my life to the legal profession and give up the possibility I might get cast. I was working on studying computers for 5 years so I could work making movies and not be forced to go back to MD. This is my home now. I am happy here and I would be bitter, angry, self-abusive and as it is I hurt myself. I have bruises all over my body. I will not date unless I think the guy is as hot as George Clooney and I have had men like Bill Paxton hit on me. But I don't play around or cheat and I can take care of me when it comes to men. There is no way in hell I would come back there to live his normal life and if my dad had anything to do with putting me on a watcher list he can pay my rent until I find a job back on sets. He has no right to my money. we agreed he would pay my private loans and I would deal with the rest, but I never agreed that I would pay it off as a lawyer or outside of the industry.

was hard working. I have casting agents here who were fans of my work ethics and my dad keeps telling me

I made this.... and I will make more and can if i had been left alone. I never want to see my family again because they did not believe in me and wanted me to be a slave to my dad. He is sick to me. I cant go do the bathroom without him knowing about it and I am a full grown adult doing what i wanted.

Two years ago i was working on sets. It was my only job since 2003. I was making 23,000 a year. I was also studying entertainment technology. The only people I wanted in my life were creative people- - actors artists musicians and not anyone like my family or parents. My parents were only paying for my gas and health and I had beaten breast cancer in 2005. I was going to sell my car and learn to ride a scooter and cut my costs and used those cuts to pay for my health so I would be free. Then I get tripped on a set and my mother tells me I have to give up what I love. I was this beautiful girl who has been turned into an old hag by her own parents. They say they had nothing to do with it, but I get tripped on a set and they are happy about it. I am fighter cause I am dancing again, though limited. My knees are still an issue and always will be, but I will not get a real job and I am not manipulating them. I think my dad has been manipulating me my entire life and I am tired of it. I will not live with them until they die like David does. They are sick and I was going to be happy. I will not date anyone unless they are actors and I have met real working ones and they have been friends of mine. they were better to me than my parents when I was sick. BUT I WOULD RATHER MAKE MINIMUM WAGE ON SETS THAN SPEND THE REST OF MY LIFE BEING A SLAVE TO MY DADS DREAM OF ME BEING A LAWYER AND I WILL NOT MOVE BACK EAST WHEN I WOULD NEVER LOVE A MAN WHO WOULD NOT ACCEPT THAT I WANT TO SPEND THE REST OF MY LIFE FIGHTING TO MAKE MOVIES AND FILM. PERIOD.

I NEVER GOT IN TROUBLE IN SCHOOL. I NEVER CHEATED EVEN AND I AM TIRED OF BEING TREATED LIKE A CRIMINAL BY MY OWN FATHER CAUSE I WOULD RATHER HAVE FRIENDS WHO HUG TREES AND MAKE MOVIES THEN ONES WHO KILL THINGS WITH GUNS.

I BITE THINGS TO THE POINT WHERE I AM BREAKING MY OWN TEETH I AM SO ANGRY. I SHOW UP TO WORK TO BE TOLD I AM ON A WATCHER LIST AND NO ONE WOULD EVEN GIVE ME MY FILES FROM 5 YEARS OF WORK. NO ONE. AS THOUGH THOSE 5 YEARS DID NOT EXIST AND THAT WAS MY LIFE. I HAD A LIFE AND IT WAS IN THE FILM INDUSTRY AND THERE WAS NOT A STUDIO LOT IN HOLLYWOOD THAT DID NOT WANT ME THERE. I HATE HIM. I WILL NEVER WORK AGAIN UNLESS I CAN BE BACK ON SETS. PERIOD. I WISH I HAD DIED OF THE CANCER AND MY DAD DOES NOT CARE. I WILL NEVER RESPECT HIM. IF I HAD TO GET A REAL JOB I WOULD FILE PAPERS SO HE WOULD NEVER BE ABLE TO CONTACT ME AGAIN OR SEE ME AND I WOULD FIGHT LIKE HELL ANYWAYS TO BE ON SET. I JOINED A UNION TO ACT AND NOT TO EVER GIVE THAT UP AND I CAN DO IT AND I HAVE PEOPLE OUT HERE WHO HAVE CASE ME IN THINGS AND HE IS CRAZY.

I worked for 5 years on sets--- 5. And I paid my rent and I paid my car insurance. And now I want to know I can work on the studio lots again. If I am violent at all, it is because people here thought my

my friends. They are actors, artists, gay straight, and I am proud of every one of them. I don't want them in my life and I am going to end my life this summer because they can't respect me enough to leave me be and let me go.

Until my father is dead. I will never be happy or free. And I don't want to end up like David. I have not lived with them since I was 18. I can't stand them and I don't want to come back to DC where I would be in pain or feel like a loser. I feel like they did something like file a conservatorship over me and I want to be emancipated and on sets again. I need to know I have free choice and I am an adult. They can't tell me I am an adult and want me to be an adult and not accept that I have the right to not do what they want. I have the right to have sex. To date. To have friends they don't need to meet. They are insane.

Apr 9, 2010, 2:39 PM

Laura Ann Tull

Up until 2007 I was paying my own rent and my parents did not even know how much I was paying for my car insurance. I have fought with roommates every step of the way as though they were being paid to try to get me to quit being on sets or acting. I had roommates go through my stuff and call my dad behind my back. I don't want to end up like David, living with them when I am a full grown adult. We had an agreement- pay my grad school and I would pay the rest. But I did not want to go back to school and waste money. I just wanted to get the skills to work on sets with computers and to work on set as a stand in or other profession. I had 5 years of experience on sets. I was better on sets than in an office. I loved my life. I will not live with my parents nor do they have the right to know where I am. I want them to respect me as an adult and respect the fact that for me to feel safe and as though I have control over my life they have no right to know my life. I am liberal. And I am not a republican. My friends are not criminal, and some of them are famous. I want my father to stop being a paranoid jerk and controlling and back off. I never want to see him again. This is my home in LA. I spent years on sets. I've stood next to the greats and watched them work- including Clooney- and there is no way I would want to stop now and go be an office worker and make nice so my father can control what I am doing. Or as he says, he knows nothing about the entertainment industry. It is the only passion that makes sense to me. And I am tired of this nightmare I have been in with them. They harassed me when I was studying for the bar, and I blame them for my failing it the second time. They need to let me go. Whatever they think- I am not celebrity crazy. I have been fortunate enough to meet and be treated with respect by some, but they are people. And I want to do the job they do. All my parents want to do is to destroy my happiness so they are happy themselves. I don't want money from them. I wanted the people I knew on sets to stop talking about how my parents would stop paying for me. I was paying my own way until the mid of 2008. One year of no work and all my years of work are over. And I will never use my law degree. My parents and others will not let me work unless I use it. That is unconstitutional and that is killing me. If I have the rights I swore to protect, no one can make me use it.

My brother is not living with them right. He is not.... I will not become their new house pet. My father just asked me if I wanted him to come get me. I want to be free. I want to hurt him if he comes near me. I will not be a lawyer and I will not be an office worker. I WAS WORKING TO DO GRAPHICS AND WORK ON SETS AND IN SCHOOL. MY DAD GOES OFF TWO YEARS AGO ABOUT ME COMMITTING FRAUD AND SAYING I NEEDED TO GET A REAL JOB TO PAY MY DEBTS. I HAD JUST GOTTEN THROUGH THE CANCER. I WAS HAPPY. CASTING AGENTS OUT HERE WANTED TO HIRE ME AND WERE. I WORKED ON GRAYS ANATOMY FOR 4 YEARS. I WAS CONTENT. MY SICK PARENTS WANT ME LIVING WITH THEM WORKING SOME JOB MY DAD WILL MAKE ME TAKE THAT I HATE. I WANT AN ACTOR IN MY BED SOMEONE WITH THE SAME PASSION AS HIM. I WANT THEM TO LET ME GO. I AM SCARED OF MY OWN DAD. PLEASE SOMEONE TELL HIM TO LET ME GO. TELL HIM TO MAKE THE GOVERNMENT LET ME GO BACK TO SETS. PLEASE. I DON'T CARE ABOUT ANYTHING ANYMORE. I DON'T. I WAS HAPPY AND I WANT TO HURT MYSELF EVERY TIME I HAVE TO CALL MY DAD FOR MONEY. I HATE HIM.

Apr 9, 2010, 1:28 PM

Laura Ann Tull

I am never going to be in love. My dad's friend with the government seem to be playing games with me from preventing me from getting books I need to study to pass my exams so for the first time I am going to fail a class. I had to fight with the mail man to get me to give them to me. I don't want him to know where I am. I am terrified of him. They are sick. they never let my brother go until the molded him into someone I could not respect anymore. I stopped loving them back in college. I wanted them to live their lives and stop pressuring me. I show up one day to a set to be told that Disney put me on some watcher list and I have night mares I will never be on a set again. My mother than tells me I have to give up what I love and my dad keeps telling me I did not tell him what was going on. I did, but I would not let him know where I am. My father will not even tell me that I am pretty. He tells me I have to get a life now. I had one. I was happy on sets. My parents are not good for me. the government hired me to work a week on the census but I had a panic attack and they told me they were going to work me again, but I don't think they are telling me the truth. I wanted to have this job so i could go SAG. I had debts to pay. I have not worked in a year cause I told my parents when I had cancer if I ever had to stop working on sets I would not want to live any more.

Because of my father I have never been able to have a healthy relationship with a guy. Frank i dumped when i moved out here, but he kept a room for me when I failed. I told him I'd die before coming back to him. I don't need a man who wants me as their slave. I don't want to be someone's wife or maid. I hate my dad. I get emotional and he puts me onto my mom. I don't care about working or even functioning. I loved what I was doing and all i heard from my father was how I was not happy and that I did not know what I wanted.

I want to be back on sets. Now in the past two years I've gone from looking 20 to 50. I don't have anything to live for because of my parents. I have nightmares of my dad trying to make me move in with them in AZ or near them. I want to leave the country now. I want to be free to work on sets. I am waiting for a call to work for the government, that I know will never come. I was a lawyer playing a lawyer on the show eli stone- non-union in 2007. I think it is ironic that the only way my father will ever get to have his dream is if he watches that show. Cause I hate the legal profession.

I get tripped on a set and my parents are happy about it. We have more then difficulties. I don't ever

it. I am union enginer. AND I wanted to earn that on my own. My parents gave me money to pay on my debts and then I was going to use the money from this job to pay for the card and then pay them back and then tell them see ya later. Cause I don't want money from them. they keep an accounting of every penny they have ever paid out to me. they care more about the cash then me. the only thing my father wants is to hear I am going to be a good little girl and work for the government and law and get out of acadamia and give up acting and the arts. I wish I had died of the cancer. I have never had anyone love me for me and I am sick of it. I want them out of my life. My father has hit me. He has degraded me. He passes me off to mom. He called me up repeatedly and then would call me from his cell and hang up and when I called the house number mom would be like he did not call. I hate that man. He has spent so much time with the government that all he sees are criminals. I was a hard working girl who wanted to do well. I want the only job that made me want to fight for my life back, and my parents don't get it. I have just me to live for. My debts. they need to let me go, but it too late. My father has destroyed my sanity and my health. I am terrified of him. I am terrified of him.

Laura, I didn't mean to be harsh before, but I care a lot for your parents as I have for you over the years and really don't want to be in the middle of this. I havent' even mentioned your name to your parents in the past couple years....I know you've all had problems, but I wish you well in CA and hope your acting career takes off!!

Nick & Jon are doing great! Jon is traveling with his band "Go Crash Audio" all over the country and Nick is engaged!! Yes, our Nick!! And I'm deeply in love with Jim and happier than I've ever been...I wish the same for you!! Take care....Amelia

That is fine. My father is trying to kill me and keeps abusing me and I was happy and content and almost free of him. I'd never cheat, lie, manipulate or steal, and the only thing I wanted was my simple quiet life here in Hollywood without my parents trying to control or dictate how I lived. No drugs. no sex even. Just working and keeping my hard working reputation that I had for 5 years. As

not doing anything unconstitutional or wrong by trying to not do a damn thing with my law degree. My best to you. I am sorry you have had a hard time. I wish you well. Good bye. You will either see me working as an actress or read my obituary, cause I will not quit after all the work I have done and I don't care about being famous. I was just content with my simple life and I don't need money to make me happy and I'd rather be homeless or have died of the cancer than give my father what he will never have - a power hungry lying manipulative lawyer. They lie all the time but because they have their church and their money they get away with it. I am crazy. Cause I want to believe I have the right to like what I want and to fight to walk and to fight cancer and to find a way to make a living in a profession that I admire. Acting to me is a respectable profession. ANd I was making money at it, maybe not enough to pay all my debts, but I was managing them and working toward skills to make films and be on sets on both ends of the camera. Instead, I want my father out of my life and want to file a restraining order against him so he can never come near me again.

It is a crime to accuse someone of doing something they did not do. I was happy living my simple life in LA. I have friends. I do things. I love it here. If I came back there and found out that this had anything to do with my accident in 1997, when I moved here in 2002. Had to have a special break installed in my car that my doctor perscribed for me, I would sue anyone including my partents for destroying my sanity and happiness. I was fighting like hell to do what i want. I am an actress. Always have been. It was the only way I survive all the lies and abuse from my father. The insults. His lies to manipulate my life. In law school he called my campus and told them I wanted to be in honors housing behind my back. I have him on tape confessing to doing that. I don't want lies or manipulative people in my life. I want to be safe again from him. On sets, working, doing what I love, and I have been constantly working to train to act. Any time my life is hit with tragedy I sign up for an acting class. That is why I chose to live and I have more opportunities out here and I am not in pain. I worked in temp offices back east to save up to move out here and used my court case funds for gym membership and a brake for my car so I could drive it out here. I spent the first year here in a brace and two out here taping it. It took me 7 years to get back to where I could run if I had to. I think my dad paid someone to trip me on set. Every time I have had roommates, they have gotten into my business. One crazy one with a dog that bit me and bit all of her roommates, went through my stuff and called him and they listened to her. The woman worked for a sex line. I did not know that when I moved in. I wanted to take care of me. I needed to solve my own issues. I was in school and my

direct one day, but no according to my dad I am difficult to deal with, difficult to get along with. When they have nothing to do with my life, I make friends, I become popular and I am cool. They touch my life and it becomes a living hell. I will never come back there again. Not unless I am working as an actress, and even then I don't want too. I don't like that. I just want to live and work and be free to be the artist and creative poet and person I am. I don't need to be rich to be happy. I want my father to get cancer again and die cause he is causing his own misery. His fucked up need to have control over every aspect of my life is going to push me to end my life. Unless I find a lawyer and put that guy on a witness stand and know who he was who put me on a list and why, I will never be OK. And yet my dad now says it did not happen, yet I have e-mails and there were witnesses. My dad will not believe me and yet I never lie. He is an idiot to me and wants me to respect and worship him. I want real men in my life. He will never be that again to me. I can't get a job at all now.. I don't want to live if I can't go back to what I loved and I wish I had not had the surgery. I told my parents if they did not stop pressuring me I would not have the surgery. I don't need to have money from a source they define to be happy.

Mar 30, 2010, 9:28 AM

ANd my father knows. I don't keep secrets from them. I tell them. They just don't want to hear it. I wanted a place to be safe from them here and not have to talk to them with a guy in my life who would read plays with me and go to museums and was good at acting and took it as seriously as I do. I am supposed to do a play in May. I keep getting cast cause my reputation in the industry was one of a professional who can do the job. It is why God made me. And if you agree with my father. You agree with someone who has belittle me, abused me, and can't even say that I am pretty or attractive or have talent. I will never be his lawyer. I went to law school hoping he would stop and listen to me for once. And back east I worked with arts groups. that is who I am and I will not want to stop now unless I can be on sets again acting. I was happy as background now I have to fight for my cards. I can make \$100 a day union. I wanted to pay for that on my own. NOt have my dad who needs to feed his own ego pay me for it so he can be proud of himself instead of being proud of me. The man has never even said he was proud of me fighting for the cancer on my own. If he had been in my life I would not have the body I have now. I chose my doctors and I got help I think from people I knew in the industry. They helped me without me asking. I ended up in a VIP room in a hospital and my dad did not know what I was going through because his need to control me would have ruined me. His touch in my life always hurts me.

Mar 30, 2010, 8:00 AM

Laura Ann Tull

I spent 5 years being on sets. I have been on every set in Hollywood. I have met and made friend with people who would have kept casting me and working me. My life for 5 years is over and I lost both my breasts to cancer and fought to walk again to be miserable. I can't sit still now. And I can't go back east cause the pain would drive me to suicide. I hate it back there and my soulmate if he exists is here. I do yoga now. I volunteer with groups with cancer and even though I don't have a job, I keep volunteering. But the only jobs I want and people I want are on sets. I was on my way to being free and making it. I had an agent who was interested in me before this happened. My dad comes to town and I refuse to see him, and he says I will regret it and my entire life falls apart. I am terrified of him. In college I used any excuse to stay on campus and not go home.

Mar 30, 2010, 7:34 AM

I fought to walk in 1997 and when I came out here I found an accupuncturist who helped me. That was 2002. I fought to walk and then in 2008 I was tripped on a set and had to fight again, while my sick parents are happy cause now I can't work on sets. But I fought to walk and I can if they let me. I was happy for the only time in my life. I hate the legal profession. I think about it and I want to end my life and my parents know that. They knew what I was doing. They would not listen though. My father never does. He hears me say I want to work in the industry and on sets he starts yelling. I was making 20,000 a year, and working 2 classes to try to learn skills so I could do webs at home and on sets. My entire future depended on me being on sets. I am eligible in both unions to be a professional actor now. I don't want to go get a real job and then do community theater for the rest of my life. That is why I dumped frank, that plus his cheating. I never want a man in my life who is like my father. who treats me like I am incapable of doing anything. he acts like I am two. He acts like I dont have a brain, while I have been fighting to cut costs and live simply. I was in a box in hollywood and for a year I was fighting my landlord to get rid of bugs. Finally they did. I would rather live with the bugs and die alone than ever be in the same room with my dad. I want a real man in my life. And i don't think most american men are real men. I want a man who cares. One who can cry and mean it. One who does not need to holster a gun to extend his manhood. I hate the NRA. I voted Obama into office. My mom tells me I came to them when I had cancer and expected them to be lovey when I wanted them to respect me and leave me alone. Instead we got into a huge fight and I spent the night at a motel. I threw away all my legal books, except those dealing with entertainment. I have done incredible things in my life, but only because I chose to. I either know my future is here in los angeles with no physical pain from the weather changing, or I don't want to live anymore. My own parents are driving me insane. I want an actor in my life, but I am professional so I don't sleep with people I work with. I want someone who is my own kind. I've had principals express an interest in me and I want my union cards do I have a future. I am supposed to do a play in May and I am terrified it will not happen.

Of family I have are of david who I have not spoken to in years, you and your kids. I don't want to see my parents faces ever again and I don't want to come back there to be in pain. I had a job I loved and have too many opportunities to act and I don't care if my parents are embarrassed by what I do. I don't. I am not a little girl anymore and they don't have the right to dictate my life. I never want to get married. But that does not mean i will not have men in my life and men I chose.. not them.

If so, I don't trust him. I hate him in fact. I was working on sets. Not making allot but getting by. I showed up one day to work to be told I was on some list like a criminal and my mother tells me i have to give up what I love. I am poor, but the only thing I had that mattered to me was my job. And my dad wants me out of acadamia and I wanted freedom of choice and no more abuse. I lived for the day I never had to speak to either one of them again. I am a good actress, cause most of my childhood they abused me and I hated them for it. I beat breast cancer in 2005 on sets. I lost my breasts and then someone took the reason i chose to stay alive. I hate my dad Amelia He does not love me. He never did. ANd I was on the way to making it on my terms. Free of him. Working in the industry and having multiple sources of income. I don't want a man in my life. I am terrified. I try to tell my dad what I want, he never listens. I had people out here have to make me union to get me back on a set. That is wrong. Believe it or not I had what it takes to make it. Not be famous. Just

job with the census, so part of me thinks they only hired me to get my info so I could be harassed by my dad even more. I have been hiding from him. He hit me with a box of epon salt in front of Frank when I moved out here. I broke up with Frank cause he wanted me to stay in MD and I told him from the beginning No. Plus he cheated on me. I would never go back to that jerk. Ever. For two years he kept a room for me and stalked me by phone. I finally changed my number.

What made me happy was not being in what my father would call the real world. You know I had Bill Paxton hit on me and had to stop working his show because he was married and it made me uncomfortable. I only want to date someone who is a working actor because I want to make 100% certain the man I am with loves what i love. Why I dumped Frank. I ended up hating him. The man actually kept a room for me back there for when I quit and came back. The pain from my joints would have driven me insane and I would have killed myself if I stayed with that man.

I am sigle and want to stay that way. Until I am whole, which is never going to happen now. I get reconnected with people from my past and all of a sudden individuals think I need to join the real world. In reality, I was loving life for the only time in my life. the only thing I want is the life I had back and if I can't have it, I want my cancer back. I told my parents when I was sick if they did not leave me alone I'd not chose to fight the disease. I was in the real world- working at an legitimate job. One I loved. entering my parents version of the real world means I make as much as I did on sets, but I dont' ahve a reason to live.

All of that is so true. I left Terry 3 years ago and found a wonderful man that is perfect for me. The boys have done very well with it all. Terry & I remained close friends. Sometimes Laura simple in life is best and that's what makes us the most happy. I turned away a large income when i left Terry and I'm happier now than I was in the last few years with Terry. We grew apart.

Trust me...I will never tell your family I spoke to you. Wouldn't do that to you. I also wish you well being and happiness. If you can see my albums on facebook, feel free to....lots of photos of the boys and my new boyfriend (Jim) of 2 years. You will be shocked how Nick & Jon have grown!
Love, Amelia

I was happy for a short time. funny thing it was the year I had cancer and the year after. Having my father in my life at all, is poison to me. I want to do what I want with my life, and my father treats me like I am a criminal because it is not his vision of my future but my own. I was happy poor and working doing what I loved. Money does not buy you happiness if how you make it makes you miserabke. I had happiness. My parents can't comprehend that.

I wish you well.

Hi Laura,

You won't hear from me again, but I just wanted you to know that I didn't realize the problem between you and your parents. I've probably only talked to them 2-3 times in the past 5 years and you weren't in the conversation. I just happened to join facebook and thought to look you up. Hope your future life goes better since it sounds as though you've been pretty miserable in the past. Take care.....Amelia

Yes. But I don't want to hear from you. My parents and i have been on the outs for years. My father hit me with a box of epon salt when I was 32 years old. He keeps hinting that he knows things going on in my life, which makes me think he is using his current job to spy on me and a year ago a network out here put me on some watcher list like I was one of my father's criminals and I got tripped on a set and ended up unable to walk for a week. I am back on my feet, because I had good doctors and I am not dealing with my seasonal depression or other health issues from back east.

I am never coming back east under any circumstances. I want to be an actress and I will never practice law. I am dirt poor, but I was happy. I don't care about money but I beat cancer in 2005 and now because of my parents I wish I had died of it, and worse my father has told me several times to go and kill myself. No pill or therapy will help my situation and I have no intention of moving back east. Any one who loves me will accept that I am staying in LA. I would rather be alone in LA, than surrounded by people claiming to care about me and behind my back saying how I once lived in LA and thought I could be an actress.

I am sorry Amelia. But anyone who my parents have contact with, I don't want in my life.

Peace and I wish you and yours the best. I saw your sons band on line. You should be proud. I remember teaching him how to toss a lacrosse ball.

Truly,

Laura
