Thank you for your history. Now please realize that this doesn't put you above the law with the ability to arbitrarily attack people, which is what YOU have done, not me. And no, you never made any kind of pronouncement you were posting private emails. Privacy is implied in personal emails, but you only care about YOUR law, to do anything you want at will. Look in the mirror girl, there's your enemy, none of us. We have nothing to do with you.

My expertise Arne in law school was Communications and Entertainment law. I was a member of the Giles Sutherland Riche American ins of Court in there Copyright Group. Kenny can confirm I worked for WALA the Washington Area Lawyers for the Arts not as a lawyer but arts management intern. I wrote papers on the NEA and droit morale. In other words Arne he'll will freeze over before your threats for me to go away or on Twitter by Wally will make me go to some small town in the mid west to what represent the one film that shoots there a year if I am forced against my will to leave LA and give up acting. Even when it came to law I was involved in entertainment.

Laura, I had nothing to do with any of the things you've attempted to tie me to. I tried to be your friend back then, nothing more. You continue to insinuate I gave you all these meaningful looks about all kinds of negative things. Guess what. Nope. All in your mind. I never attacked you, talked about you, backstabbed

you....NOTHING. You continuously point out I was in the locations that you were in when things happened to you. So what. We DID work together, of course I was there. You mention I said you were in the Stand Up To Cancer PSA, and you were, so what, you make it sound like I'm saying that as a negative. So you make up all these twists of things. And no, you didn't tell me you posted these emails online. I was horrified to see what you've done. And yes, I DID suggest that you need to talk to someone and get help but you didn't want to, you don't believe in medicine. I only talked to YOU, no one else. And what I was telling you is the opposite of crazy, it's a condition, one that can be controlled. (And I don't have a sister by the way). Oh well, Your choice, your problem. The only person who keeps you from work, is you.

But YOU on the other hand continue to attempt to hurt me, dragging my name into all these things that clearly I have nothing to do with. Thankfully your own letters prove that to anyone who reads them. And yes, I've got a folder too of all your emails, since your erratic behavior is proven in every one of your notes. Took you 4 of them just to answer my small paragraph to you, all with the same regurgitated nonsense you've been repeating for years. So, you want to be the enemy. Fine, you've earned the spot. Get help Laura. Now take down that page and my personal emails to you and we won't speak again. Pushing it would be a mistake.

Mr STARR I don't have fantasies in fact you are the one delusional. You told me you were going to be the star of some SCIFI project up in CANADA. I am really a resigned lawyer. My goal was not to be a star but to just work and now I am forced to put myself out there at any moment I can in order to get what I LOST BACK- me working on sets. I had no delusions of being cast from background AND YOU SLANDERED ME INSINUATING I HAD the condition your sister had. no one in my family has ever been a schizophrenic. WHAT DELUSIONS. I am a legitimate member of SAG AFTRA and have the VOUCHERS to prove it and none of them were from CARNIVLAE OR DEADWOOD.

Then sue me you ass whole. I heard the cast member of GRAYS look at me the last day and tell you that you would be OK after you walked up to me on set with phone in hand and said you were recalled and then looked shocked and told me so was I. YOU DID NOT HELP ME YOU FUCKING BULLIED ME BY INSINUATING I WAS CRAZY which by the way was LIBEL.

I NOW HAVE NODULES ON MY THYROID and I AM FORWARDING THIS TO THE NLRB. DO YOU KNOW WHAT THAT MEANS? I have hyperthrodism and there is nothing I can do about it. I JUST WANTED TO WORK and you and your guy friends were upset that I managed to get fitted onto STAR TREK before you but I could not work it. You even made comments about how I was in STAND UP TO CANCER PSA on the SET OF GRAY"S. You bet I was- I lost my breasts to cancer.

I have just as much right to be respected as a person who was WORKING and not your delusions as to what was in MY HEAD. SERIOUSLY. I had the right to be with my UNION and I saw you at SAG AWARD events sir and that you could not even look at me.

HOW DARE YOU? And I told you I posted those emails a long time AGO.

I AM FIGHTING FOR MY LIFE and you are still working on sets and I LOST ALL THE CASTING AGENTS AT THE SAME TIME SIR AND I DID NOTHING WRONG. Demspey and DANE thought I was neither an ACTOR OR A LAWYER and I had no interest or thought of being cast on GRAY's You were the one who went on and on about how they were naming your character and going to bump you up.

Good, I'm glad you sent a copy of this and hopefully ALL of your emails. It only takes a person ONE of your letters to see there is a serious problem with you, one you are obviously incapable of seeing in your denied paranoia, so a whole cadre of them will get them to be looking at you, not me.. And it will be also quite obvious as to why your are not getting work. You seem to be of mind that because I have friends in the business that myself and all of them are plotting against you. Because I work, that's against you. Because I was a regular on Grey's, that's against you, but I'm in good company since the principle actors, the creator of the show, and many others there are also all plotting against you, at least according to your constantly repeated doldrums. Bedtime Stories, ah yes, the place where you decided to scream at the top of your lungs at a PA who was completely shocked at what you were doing, based on another fantasy of people getting you on a whole other show Eli Stone, and then you were surprised that you were asked to not come back and get yourself thrown out of Central. Yes, please, forward all these notes, they can easily corroborate all of it. And I do request of them to send you back a cease and desist, to take me off of your site, and once again, you can then just go away....

Laura, relax. You tell me all these details over and over and over, but they all have absolutely nothing to do

with me. I have brought up not a single one of your details, ever, you have. You accuse me of going above the law, when it is you publishing private emails, going into my friends list to see who is somehow connected to your stories, and using them to make unfounded accusations and connection to you. I know only what you've told me of your medical history. No idea who Sam is, and don't care. Courtney I know from set, nothing more. Central gets reports from the people in charge and those are your repercussions, which, guess what, had nothing to do with me. You seem to have this urge to target me because I'm a working actor, and for whatever reason, you don't like that, and feel that if I'm working then you should be too. You swear up and down that you do not lie. If that's the truth and you do believe that, then you need to stop including me in these stories of yours, because I am NOT part of them, and holding me up as though I am, is certainly not the truth, so what does that make it....

Goodbye.

I don't lie Arne. I never have been a liar. Period. Because I've suffered enough I will not go do community theater or get a job that will lead me not working on sets. We have a right to pursuit of happiness which means mental and physical well being. I have medical records proving I have nodules, lost my breasts, pay checks for every day on set, records showing I have a slipped disc in my upper back, and my knees won't let me ride a bike.

I also don't have an STD. The girls from deadwood and a guy I know who gave his girlfriend herpes started that one. I'm a nice girl but in also a resigned lawyer Arne. I won't lie which is one reason I won't practice. Conflicts with dealing with lying clients.

You think your above the law, you can bully, call me names, belittle my integrity and sanity. And I did not insinuate you caused this but you've informed me what the opinion was which are slanderous. I don't stalk. Seriously my ex is Sam Bakalian. I have emails from him. He worked for Gore. I'll even give you a list of every man I've kissed if you think I violated some law with that.

I think what was orchestrated was the crime against me. Intentional infliction of emotional distress and I have blood tests proving my thyroid anti bodies were high in 2008. I'm telling the truth and like Jeremy Gilbreathe you don't want anyone to believe, if I lied face me with it, seriously cowards accuse someone of lying behind their back, You tell me in one email I was speckong on Bed Time but I showed up that day to be told I cancelled. If anything Courtney Lovell or Central wanted to make me look irresponsible and I'd never cancel. In 5 years for Central I cancelled 3 times. I took my work seriously And loved it. I was not out for the American dream but just to love life and be on sets, I will never have any happiness not being on a set. Never.

Its a crime to post those email? A crime? Ask your lawyer the distiction between a crime and a civil action. It is also not a crime for me to refuse to work with or practice law or refuse to work for the government. I took an oath to up hold the constitution and I'm doing that by standing up for my own rights to not be blacklisted or denied my rights by the Union. Every union lawyer I've managed to get a 30 minute consult with has said what the Union is doing is wrong. Also from an ethics perspective if I can't mentally deal with law I'm required to quit.

I love you practically quote my dad, he hit me, lied about me, and I've never been on meds or been arrested. Put in a drug rehab place for three days yes, but I don't do drugs and I don't practice law Arne but it's not a crime to pretend to be one on TV as an actor. We don't have debtors prison and any and all debt I had was with the goverent and I told them in 2007 I quit law and I'm training to work with web series and acting, and they told me I could do what I want. I'm going to finish the program now and not be able to reach any of my goals because of pettiness and one man's need to cover up his addiction to drugs and sex, neither of which I'm obsessed over.

No logical person makes choices to be miserable and as long as I can find away to work with actors and be around actors I'm not doing community-based theater. I was so happy on sets that I need to keep working to be back there.

A set photographer makes \$50 An hour. An art director makes \$2000 a day and I'm a creative girl and a good actor. Arne I was in the first cast of Choices a play done for freshman on the east coast and got rave reviews. The play is still done to this day. You are harrassing me. And emails are admitable in court or legal proceedings Arne. Seriously please, I'm sick physically. Your actions are negligently harmful to my health. I told you I posted those blogs awhile back. You are invading my email with derogatory criticism of my sanity and character and that is criminal as it is negligently harmful to my health and well being. Please go talk to someone about your need to hurt women like myself if we are happy and having some success.

If you don't stop now I will take steps to protect my safety to ensure you can't be near me. I'm not going to be forced to leave town or the industry because of your fear and hatred of me as a former protestant white intelligent woman. And there are people here who like me. People her who would cast me. I'm even in the Brittish acting groups on Facebook. There is actually more open work there than her but that makes me furious. There is no law making ma slave to anyone Arne, and my father has even said I don't have to pay him back, but I'm not going to associate with anyone You or he wants me to to get work. I'm not going to be forced to work in Chritian films or with republicans or even in the vegan world. I'm her to act Arne and you have no right or anyone to lie or deceive or slander or insinuate I'm delusional. You are not medically qualified to determine my sanity Arne. And I'm not pagan either.. My expertise Arne in law school was Communications and Entertainment law. I was a member of the Giles Sutherland Riche American ins of Court in there Copyright Group. Kenny can confirm I worked for WALA the Washington Area Lawyers for the Arts not as a lawyer but arts management intern. I wrote papers on the NEA and droit morale. In other words Arne he'll will freeze over before your threats for me to go away or on Twitter by Wally will make me go to some small town in the mid west to what represent the one film that shoots there a year if I am forced against my will to leave LA and give up acting. Even when it came to law I was involved in entertainment.

I started this by asking you to take down private emails that are your examples of how I somehow am the author of all your troubles. You're funny. By posting these things, you show no honor, no remorse. Yes I pushed you for unemployment. It's YOUR money. It was taken out of your pay, And its legally yours when you aren't working. But you want to believe its some kind of insult. Again, I was always just trying to help, don't need confidentiality agreements with friends. I'm sorry your sick, I didn't do that either. Never said anything against you about that Stand UP psa, you did deserve to be part of that, and I had no problem with that at all, but you keep on asserting I did. Why would I do that? I'm in the same PSA. But your number one excuse you seem to keep on coming back to, the reason I must be against you, Is because I'm working? What the hell is that all about. Your site is being attacked? How many other people are you blaming Machiavellian plotting against you that are clueless as to where you are getting it all from...

I talk to you because I always try to do the right thing, and I'm still trying to MAYBE get to the normal thinking

person inside of you. But you defy logical thinking and circle back to your illogical connections to everything, continuously bringing up the same disjointed blame, which I'm sure just makes everyone on your list drop their mouths open in disbelief. Probably in more disbelief that I'm even wasting time trying to talk to you. Talk to your said lawyers, I'm sure they'll agree you need to stop this....

This was the very first email I received it today but it was sent yesterday. You started this and my website has been attacked before. Hate to tell you Arne but we had no agreement of confidentiality. Though I'm a woman of honor you ceased being a friend when you attacked my reputation for competency and kept pushing me to apply for unemployment when I was working. Unless you knew what was going to happen? You started this with this email. Yet you imply in later emails you do not intend to sue me or take legal action? I'm a citizen Arne I have a right to a day in court something The Union and the industry has denied me since blacklisting me. I'm sick Arne. I've been telling that to you all day and instead of taking action you have gratefully responded to me. In other words Arne you took the risk by emailing me and I can show said email to whom ever I chose. Call me what ever you want. I'm a talented girl who wanted laughter and art in my life and being soon sets, not abuse and discrimination.

I stress ask a licensed lawyer about half the people getting this are just that.

I'm apparently a stalker. Arne was on set the last day I was on Grays. He knew I was studying digital and put me down for it. He also knew I was not a scientology. My guess is your friends with Blake since you were friends

with Jeremy who tried to rape me. I don't care about being rich. I don't care about the fame. But im union. I am 60000 in credit card debt bc of the Union. I want to keep my card and I want the right to go to events and take classes at AFI or everything I learned in law school was a lie. I have thyroditis now. There is no cure. Its worse then cancer because I could get hypothyroidism early menopause, gain weight. I am not into sex because I was looking for my other half. Someone who would let Me have fun. There is no loving my life when.I wanted to be on sets and in film. Jeremy got to tell everyone I smell, I was trouble, I don't know what else yet I worked for five years. I don't want a future sitting across from some jerk like my dad I am desperate enough to trap into a loveliness marriage and listen to his day at work, have him pound into me at night with no passion bc when I talk about my film or tv or acting his eyes glaze over in boredom. I don't have any friends. I don't like people who don't respect me as an actor.

I don't want [to.be](#) in the real.world gain. I did not want to.live when I have cancer. Even Blake doesn't want me around anymore.. and I hate lawyers. I will not go back to DC. I.lived at the theater in college, I graduated a virgin. My best guy friend/ boyfriend was a six foot tall actor. He cheated on me. Ended that. But I would not sleep with him. I was not ready.

My ex is on my wall form DC, he's a musician. British rock. We are not right for each other anymore. I'm stuck with no friends and no one to hire me. Bc I'm not fighting for a life to pay bills and never be with the Union. I would chose to die if I can't be an actor especially since Blake does not want me.

Mr STARR I don't have fantasies in fact you are the one delusional. You told me you were going to be the star of some SCIFI project up in CANADA. I am really a resigned lawyer. My goal was not to be a star but to just work and now I am forced to put myself out there at any moment I can in order to get what I LOST BACK- me working on sets. I had no delusions of being cast from background AND YOU SLANDERED ME INSINUATING i HAD the condition your sister had. no one in my family has ever been a schizophrenic. WHAT DELUSIONS. I am a legitimate member of SAG AFTRA and have the VOUCHERS to prove it and none of them were from CARNIVLAE OR DEADWOOD.

Then sue me you ass whole. I heard the cast member of GRAYS look at me the last day and tell you that you would be OK after you walked up to me on set with phone in hand and said you were recalled and then looked shocked and told me so was I. YOU DID NOT HELP ME YOU FUCKING BULLIED ME BY INSINUATING I WAS CRAZY which by the way was LIBEL.

I NOW HAVE NODULES ON MY THYROID and I AM FORWARDING THIS TO THE NLRB. DO YOU KNOW WHAT THAT MEANS? I have hyperthrodism and there is nothing I can do about it. I JUST WANTED TO WORK and you and your guy friends were upset that I managed to get fitted onto STAR TREK before you but I could not work it. You even made comments about how I was in STAND UP TO CANCER PSA on the SET OF GRAY"S. You bet I was- I lost my breasts to cancer.

I have just as much right to be respected as a person who was WORKING and not your delusions as to what was in MY HEAD. SERIOUSLY. I had the right to be with my UNION and I saw you at SAG AWARD events sir and that you could not even look at me.

HOW DARE YOU? And I told you I posted those emails a long time AGO.

Laura, I had nothing to do with any of the things you've attempted to tie me to. I tried to be your friend back then, nothing more. You continue to insinuate I gave you all these meaningful looks about all kinds of negative things. Guess what. Nope. All in your mind. I never attacked you, talked about you, backstabbed you....NOTHING. You continuously point out I was in the locations that you were in when things happened to you. So what. We DID work together, of course I was there. You mention I said you were in the Stand Up To Cancer PSA, and you were, so what, you make it sound like I'm saying that as a negative. So you make up all these twists of things. And no, you didn't tell me you posted these emails online. I was horrified to see what you've done. And yes, I DID suggest that you need to talk to someone and get help but you didn't want to, you don't believe in medicine. I only talked to YOU, no one else. And what I was telling you is the opposite of crazy, it's a condition, one that can be controlled. (And I don't have a sister by the way). Oh well, Your choice, your problem. The only person who keeps you from work, is you.

But YOU on the other hand continue to attempt to hurt me, dragging my name into all these things that

clearly I have nothing to do with. Thankfully your own letters prove that to anyone who reads them . And yes, I've got a folder too of all your emails, since your erratic behavior is proven in every one of your notes. Took you 4 of them just to answer my small paragraph to you, all with the same regurgitated nonsense you've been repeating for years. So, you want to be the enemy. Fine, you've earned the spot. Get help Laura. Now take down that page and my personal emails to you and we won't speak again. Pushing it would be a mistake.

Good, I'm glad you sent a copy of this and hopefully ALL of your emails. It only takes a person ONE of your letters to see there is a serious problem with you, one you are obviously incapable of seeing in your denied paranoia, so a whole cadre of them will get them to be looking at you, not me.. And it will be also quite obvious as to why your are not getting work. You seem to be of mind that because I have friends in the business that myself and all of them are plotting against you. Because I work, that's against you. Because I was a regular on Grey's, that's against you, but I'm in good company since the principle actors, the creator of the show, and many others there are also all plotting against you, at least according to your constantly repeated doldrums. Bedtime Stories, ah yes, the place where you decided to scream at the top of your lungs at a PA who was completely shocked at what you were doing, based on another fantasy of people getting you on a whole other show Eli Stone, and then you were surprised that you were asked to not come back and get yourself thrown out of Central. Yes, please, forward all these notes, they can easily corroborate all of it. And I do request of them to send you back a cease and desist, to take me off of your site, and once again, you can then just go away....

While Arne was attacking me I was being attacked on Twitter. 24 hours after the NLRB dropped charges against the Union. I'm a nice girl. I don't cheat. I don't fool around. I don't steal. I don't like corporate America, and I need the rights I'm supposed to have with my union. If Blake did not want me I should have the right to find someone else. I need love to. But I'm. It going to have faith in the country of the celebrities have the right to take my rights and exclude me from events. And if Blake Imus with a hot girl or anyone I should have the right to network with my union for work regardless. Seriously I'm not a who're or a rapist. And others should be able to deal with my presence, I'm not a pedophile or leper or have anything contagious. Look who Arne has on his wall.

And I just got attacked again. I went to college on a full scholarship and I'm not a WASP. Is this what you meant Arnie because my action against SAg AFTRA is because I'm not Jewish and only if you guys talked to my parents would anyone know I'm a WASp and all the reps from SAG on your page including the former President-- Rosenberg etc. Are Jewish and I got asked out by Blake Shields Ambramoviytmz who wrote a play with a lead character who seems WASPY by the description. I once practiced pass over and for the record dated a guy in DC named Scwartz once and well I though Blake was Jewish but I've been told he has been to AGAPE events. I am not Cristian. My ancestors were actually Tully as in McTully as in Ireland and before that Rome. My last name comes from Cicero Tullius, my toes are Roman toes and my blood type is A positive. I could have who ever is doing this arrested under the violence against women act. Again my parents Did not pay for college and I worked for Alvin Snyder a Jew who started the communication office under Nixon and he paid me 27,000 for the year I worked for him and as a temp I made 40000 a year back in DC.

Conspiracy to commit a crime Arnie I believe is also actionable but check with a lawyer. And I'm curious llyanne are you also Jewish since the Unionsent me my card. I'm still a member but you refuse to let me attend events. Jeff Olan i believe is also Jewish. Between the Jews Discriminating against me and calling me a kept WASP and Christian Men implying I need a husband to have a home or I need therapy to ward off SATAN. Seriously I'm the one that needs a doctor. The legal definitions of insanity all have one basic thing in common, knowing the difference between right and wrong.

In my dating I don't prejudice other than having faith, but blind ignorant faith is out, as are men who do not physically take care of their bodies. Work out or get out ArNE and if my blowing off you older guy friends onset who by the way I know batsmen for being liked isn't discrimination, but my right as a womAn to not put up with unprofessional men on set. Even Blake Shields I ignored on Sleeper Cell when I was on set of Sleeper and did my job period.

And I sent these to the NLRB, and Blake friended me on FB without telling me he was dating anyone, but I guess I'm a WASP so it's OK to be made to look like a who're, which may have not been his attempt, but a Casting agent who by the way mentioned worked on Miracle Mile starring Rosenberg made comments in a group Q&A that actors should spend money on headshots rather than a date where they might get a blow job and he brought up Hughes and made comments about knocking off someone's wall for too much posting. Blake at one point wrote me an email telling me he was going to block me for too much posting. It was my FB page and I was not posting on his.

Is this the threat you and your Connections on the board all of whom I believe are Jewish. And perhaps that is why Blake is not working because he well is obviously a jerk, but also because he did go to AGAPE functions not stay within the family??

You started this, thoughts blogs have been up a long time and since the agencies that blacklisted me are still hiring you all your doing attacking me at this time when I'm sick is making yo look like someone who isn't nice or professional.

And I've been mentored by an actor from Star Trek who knows I'm an honest actress.

Cease and desist calling me names. A hate crime is a hate crime and your words are intentionally hateful as are the man who also attacked me on Twitter and I want the police to investigate if they know each other.

Or if Arne and woody? Are both Union. I've hit one person in my life my ex boyfriends brother for kissing me. I was not arrested for it in fact his friends told me he deserved it and I'm sick with hyperthyroidism cease and desist Arne you've gone to far.

Arne I'm not licensed anymore BC I quit. But according to this paper a recipient can show an email to anyone.

You took the risk by emailing me. And again you emailed me this morning I did not attack you and those posts have been up for over a year and your still working. Now the law may have changed but I was not out to get you. I wanted my rights back. After working 5 yrs I suddenly get treated like I killed someone yet I worked for the census in 2010. I'm not reading your last email now, frankly my temperature is up to 100 and I'm rebuilding a computer today to build a home studio. <http://www.rbs2.com/email.htm>
And Carol I never attacked you either. Arne today has told me I'm delusional, dangerous, paranoid and the most vicious thing I've said is its not my fault his project fell through in Canada.

Arne I have over 1000 followers on my Twitter including Canadians Buddhists Bahai, Indians, maybe Jews, poets, yogis, vegans. Your blowing smoke.

And all of this I created. Made these

And I auditioned for Amazon and if I had the equipment I'd be working voice even if you hate me Arne. You want me to go away when I have not been in contact with you for over a year or more.

You threatened me and I point out to you that sue me. You don't seem to get we get a day in court Arne. I'm not hating on you for being a Jew if that is what you are. I think Passover is cool.

You will have to face me in court. You will have to tell the court that I repeatedly told you I was sick. If you have a means of stopping me ARne legally but you will still have to testify. it seems your emails are a vicious attempt today to abuse me and are threatening and maybe I should post them. Arne there is no confidentiality statement attached.

Peace.

Lose your fantasy that my attempt to maybe help you years ago has been the reason that everyone in the known universe is against you. Its you. The only person you can attribute to your problems is ...you. I do not care about you, your holidays, your past, your illnesses, I really don't care. I attempted to care years ago, but you showed me the error of my ways.

You don't get it. Its your delusions of grandeur that i insinuate you caused this. You did not. The leads of grays did. You seem to express that my entire experience on set was you. At the same time you harnesses me in emails claiming I'm dangerous, I'm delusional, I'm paranoid (I'll say yes I m bc As many lawyers have said to me you have to watch your back) but you imply I'm out to get you. No. You were there that last day on Grays and I left being told I was coming back to work. I'm not the one who needs help Arne. You do,

Do you know that I almost dated Cynthia Youngbloods ex Jonny Ponzio and that she was talking to Dempsey and Dane about Me and backstabbing me to PAs. Do you know Jeremy who is friends with Johnny tried to Rape me. Do you know I've been friends with Kelly Perine and dated his friends in 2005 right before finding I had cancer yet you and your friends seem to think I was so obsessed with what, because to be a stalker I must be obsessed with someone. I'm an actor, so you say you are to, the focus on doing it rather than attacking me because I got a credit, did a red carpet and you are hating me for it.

You were upset with me bc somehow you found out, bc as I recall you brought it up to me bc you saw the script bc I got fitted for Star Trek before you did but then I could not do it. I was allergic to latex. People shouldnotbe hating on me. As it stands I have no choice but to keep fighting to act bc guess what Arne, I don't want to be miserable. I'm not the wife type,I'm A doer and I love acting. Andifmy job to pay my rent does not involve acting a well I'm not going for it.

I'm now terrified you might attack or hurt me in some way.

But you want to believe its some kind of insult. Again, I was always just trying to help, don't need confidentiality agreements with friends. I'm sorry your sick, I didn't do that either. Never said anything against you about that Stand UP psa, you did deserve to be part of that, and I had no problem with that at all, but you keep on asserting I did. Why would I do that? I'm in the same PSA. But your number one excuse you seem to keep on coming back to, the reason I must be against you, Is because I'm working? What the hell is that all about. Your site is being attacked? How many other people are you blaming Machiavellian plotting against you that are clueless as to where you are getting it all from...

I talk to you because I always try to do the right thing, and I'm still trying to MAYBE get to the normal thinking person inside of you. But you defy logical thinking and circle back to your illogical connections to everything, continuously bringing up the same disjointed blame, which I'm sure just makes everyone on your list drop their mouths open in disbelief. Probably in more disbelief that I'm even wasting time trying to talk to you. Talk to your said lawyers, I'm sure they'll agree you need to stop this....

Hate to tell you Arne but we had no agreement of confidentiality. Though I'm a woman of honor you ceased being a friend when you attacked my reputation for competency and kept pushing me to apply for unemployment when I was working. Unless you knew what was going to happen? You started this with this email. Yet you imply in later emails you do not intend to sue me or take legal action? I'm a citizen Arne I have a right to a day in court something The Union and the industry has denied me since blacklisting me. I'm sick Arne. I've been telling that to you all day and instead of taking action you have gratefully responded to me. In other words Arne you took the risk by emailing me and I can show said email to whom ever I chose. Call me what ever you want. I'm a talented girl who wanted laughter and art in my life and being soon sets, not abuse and discrimination.

I don't lie Arne. I never have been a liar. Period. Because I've suffered enough I will not go do community theater or get a job that will lead me not working on sets. We have a right to pursuit of happiness which means mental and physical well being. I have medical records proving I have nodules, lost my breasts, pay checks for every day on set, records showing I have a slipped disc in my upper back, and my knees won't let me ride a bike.

I also don't have an STD. The girls from deadwood and a guy I know who gave his girlfriend herpes started that one. I'm a nice girl but in also a resigned lawyer Arne. I won't lie which is one reason I won't practice. Conflicts with dealing with lying clients.

You think your above the law, you can bully, call me names, belittle my integrity and sanity. And I did not insinuate you caused this but you've informed me what the opinion was which are slanderous. I don't stalk. Seriously my ex is Sam Bakalian. I have emails from him. He worked for Gore. I'll even give you a list of every man I've kissed if you think I violated some law with that.

I think what was orchestrated was the crime against me. Intentional infliction of emotional distress and I have blood tests proving my thyroid anti bodies were high in 2008. I'm telling the truth and like Jeremy Gilbreathe you don't want anyone to believe, if I lied face me with it, seriously cowards accuse someone of lying behind their back, You tell me in one email I was speckong on Bed Time but I showed up that day to be told I cancelled. If anything Courtney Lovell or Central wanted to make me look irresponsible and I'd never cancel. In 5 years for Central I cancelled 3 times. I took my work seriously And loved it. Its a crime to post those email? A crime? Ask your lawyer the distiction between a crime and a civil action. It is also not a crime for me to refuse to work with or practice law or refuse to work for the government. I took an oath to up hold the constitution and I'm doing that by standing up for my own rights to not be blacklisted or denied my rights by the Union. Every union lawyer I've managed to get

a 30 minute consult with has said what the Union is doing is wrong. Also from an ethics perspective if I can't mentally deal with law I'm required to quit.

I love you practically quote my dad, he hit me, lied about me, and I've never been on meds or been arrested. Put in a drug rehab place for three days yes, but I don't do drugs and I don't practice law Arne but it's not a crime to pretend to be one on TV as an actor. We don't have debtors prison and any and all debt I had was with the government and I told them in 2007 I quit law and I'm training to work with web series and acting, and they told me I could do what I want. I'm going to finish the program now and not be able to reach any of my goals because of pettiness and one man's need to cover up his addiction to drugs and sex, neither of which I'm obsessed over.

No logical person makes choices to be miserable and as long as I can find away to work with actors and be around actors I'm not doing community-based theater. I was so happy on sets that I need to keep working to be back there.

A set photographer makes \$50 An hour. An art director makes \$2000 a day and I'm a creative girl and a good actor. Arne I was in the first cast of Choices a play done for freshman on the east coast and got rave reviews. The play is still done to this day. You are harrassing me. And emails are admissible in court or legal proceedings Arne. Seriously please, I'm sick physically. Your actions are negligently harmful to my health. I told you I posted those blogs awhile back. You are invading my email with derogatory criticism of my sanity and character and that is criminal as it is negligently harmful to my health and well being. Please go talk to someone about your need to hurt women like myself if we are happy and having some success.

If you don't stop now I will take steps to protect my safety to ensure you can't be near me. I'm not going to be forced to leave town or the industry because of your fear and hatred of me as a former protestant white intelligent woman. And there are people here who like me. People here who would cast me. I'm even in the British acting groups on Facebook. There is actually more open work there than here but that makes me furious. There is no law making me a slave to anyone Arne, and my father has even said I don't have to pay him back, but I'm not going to associate with anyone You or he wants me to to get work. I'm not going to be forced to work in Christian films or with republicans or even in the vegan world. I'm here to act Arne and you have no right or anyone to lie or deceive or slander or insinuate I'm delusional. You are not medically qualified to determine my sanity Arne. And I'm not pagan either.. I should add using the cops to destroy someone is also abuse of process and considering that I continued to work two days after I asked Courtney why and she responded to me via email with no mention of an attack a year later. I don't think she would do that if I terrified her and hurt her. You have to be kidding me.. seriously you guys hate me so much you'd make up me attacking someone?

Note I include Tim Rudd I'm sorry Tim who mentored me. Stop the lies. I never attacked you or anyone. In fact I just told you on Grays you should not be on the phone on set.

Thank you for your history. Now please realize that this doesn't put you above the law with the

ability to arbitrarily attack people, which is what YOU have done, not me. And no, you never made any kind of pronouncement you were posting private emails. Privacy is implied in personal emails, but you only care about YOUR law, to do anything you want at will. Look in the mirror girl, there's your enemy, none of us. We have nothing to do with you.

My expertise Arne in law school was Communications and Entertainment law. I was a member of the Giles Sutherland Riche American ins of Court in there Copyright Group. Kenny can confirm I worked for WALA the Washington Area Lawyers for the Arts not as a lawyer but arts management intern. I wrote papers on the NEA and droit morale. In other words Arne he'll will freeze over before your threats for me to go away or on Twitter by Wally will make me go to some small town in the mid west to what represent the one film that shoots there a year if I am forced against my will to leave LA and give up acting. Even when it came to law I was involved in entertainment.
