I cashed my check and I am no longer a member of AFTRA?? They reimbursed me and I am going SAG. Sorry but I had a fraud committed against me and no one did a thing. I am a full grown woman who was not on sets for men or dating. I have friends who are in relationships and such and I am tired of politics. I chose to beat cancer to act.

I have decided in fact to document every hour I spent on sets from 2003 forward since central casting erased my file and acted like I did not do good work for them and ended my work after I was tripped on a Paramount set in 2008 with crew from Eli Stone. Taking away ones work after one has a Workers Comp case is pretty much FRAUD. And ABC used to be owned by Paramount.

I kept thinking I was being mistreated or treated differently this past year, and when I found out Jason George was the head of the EEO that explained it all to me. If you did something so I am still in when I cashed the check to pay off a debt I put myself in to join then we have an issue.

In addition, My credit card was abused last summer and therefore I assume I get to keep the credit check in effect for a year to ensure that I am protected while I become a member of your sister union.

I am sorry Caroline. I think you have the best intentions in your heart but the way I was treated at the Pally by Conseulo and the way Grey's anatomy treated me is unforgivable in this country to me, period. Thank you.

Truly,

Laura Ann Tull
