I like my privacy. But i dated jordan marks in 2003. He pursued me. It lasted one date and a bunch of days working together on sets. He was 19 at the time. Not my type but he was persistent. Jordan Marks

I dated Joey Dolezal in 2003 when i was working Carnival. I dumped him. He was too young and i found out he was dating a crew girl while dating me from his friend. <https://youtu.be/08Nw9LTDKf8>

I dated 2 friends of Kelly Perine the actor.

I knew Kelly in 2005 when i had cancer. I never told people i knew him. I knew allot of people. And im now terrified because of the backstabbing and the sense i will never be cast again. People holding their breathe expecting me to quit are wasting there time because i feel so justified in my anger at being bullied by not being respected as am actor I womt budge to fight to be something else. Im not pitiful. People who really know me know im a warrior. I will not be the lobrarian school marm my twitter troll demands i be because im not hot and therefore not good enough for Blake. Then he isnt good enough to be respected either. I want him to tell the union im actor to and deserve my rights because im not ficore. Period.

This is jeremy gilbreathe who i never dated and who is married to Alaina Filo. Alaina went to my college McDaniel but 2002 and im sick of her husband blackliating me as crazy for sexually assaulting me in 2006. <https://www.zola.com/registry/alainaandjeremy>
