I know you told me to be careful with emails but there is a connection with the class and my sexual assault and online attacks.

Et 33 is the class i need to finish film production. I went to the main campus and got the certificate information and checked.

I may need one class more for the digital media certificate but im relatively done. Im going to be done with nothing to show for it or employment.

Carrie is with the agency **Cunningham Escott Slevin & Doherty (CESD) [US]**

That agency reps John Carol Lynch who was on my FB at one point and i worked with on set. The guy that sexually assaulted me was a stand in on Carnivale with John. They also rep Kate Walsh. I asked Kate at SAG Foundation why Grays had me come to set to be told i was on a list. See here. After that night the sag foundation banned me from the building. <http://lauraanntull.artistichope.com/acting/?p=1178>

Kate is from AZ. My father ran the southern half of AZ for Customs and was homeland. However i trained as an actor. My twitter troll keeps telling me to go to AZ and inferring im a Republican. I grew up in Lutherville Maryland. My parents moved to Arizona after i moved out.

Kellan Luntz I studied acting with post Carnivale and after my mastectomy. 2006/2007. Cyb Barstable was our teacher. I got cast in the web series It Casting from students with Cyb.

I have James Hong's former manager on my linkedin. I worked on Balls of Fury with him summer 2006.

Patrick Fabian i met him at a sag meeting and signed his petition to be elected into office.

Tim Russ used to be on my FB. He is on my linkedin and was at one point mentoring me. He was in my life back in 2011 2012. I can still reach out. He gave me a review on stik.

Roger Lim Ive socialized with at film festival network events.

Brian Turk worked with me on Carnivale.

I have a law suit against actors in Carrie's agency for slander and blacklisting.

I also oddly enough owe some of them. However Tim dropped off my FB just after the union blacklisted me. He was just a friend. His review of my work. <http://www.stik.com/p/arts+%26+entertainment/california.glendale/p/lauraanntull>

My twitter stalker attacked me the night of the Venice Beach film festival awards and the night of a vegan film.award dinner at the Awareness festival just this month. Both nights i was in the room with two people who i know know the guy who molested me.

I do not know what to do. But i do nkt like feeling like im.just being pushed pit and threw. I have a gpa of 3.7 but I have no choice but to fight sag aftra because i have too much education to want to stay below the line. This situation is also dangerous to my well being.
