Perhaps i should have talked to you about this but i do not like conflict. I am perceptive or sensitive and i suspect there are reasons i do not know but i do not feel comfortable working with Carrie. Maybe it is because i asked her to friend me on FB and she refused. She seemed to yell at me and ride me on one project and i almost walked off. And a quote she made in her bio on the SMC website often claimed to be Einstein was also used by people who knew a guy who sexually assaulted me and my own father as to why i have been abused by my union and off sets. Irony is there is no concrete evidence einstein ever said the quote.

I have not missed a single production this semester. I admire what Carrie is planning to do with crash, but im also being repeatedly attacked by someone who has insinuated im republican and have white priviledge. Ive gone so far as to send the attacks to the FBI and the lapd.

I was sick this past weekend with a weather migraine.

I realize this is the final. I hope you take into consideration i have not missed any other projects and we are allowed 2 absences a semester.

Xiomarra and Carrie are aware i am not going to be there. I let them know two days ago. Things change and perhaps some day down the road i will feel more respect from Carrie but for now i cant.
